BIBLIOGRAPHY

Annotated abstracts, PDFs, new research, tutorials, and case reports are available at www.AlleviaHealth.com.

Randomized Controlled Trials

Barclay, T. H. and R. D. Barclay (2014). A clinical trial of cranial electrotherapy stimulation for anxiety and comorbid depression. *Journal of Affective Disorders* 164:171-177.

Taylor, A. G., J. G. Anderson, S. L. Riedel, J. E. Lewis, and C. Bourguignon (2013). A randomized, controlled, double-blind pilot study of the effects of cranial electrical stimulation on activity in brain pain processing regions in individuals with fibromyalgia. *Explore* 9(1):32-40.

Lande, R. G., and C. Gragnani (2012). Efficacy of cranial electric stimulation for the treatment of insomnia: A randomized pilot study. *Complementary Therapies in Medicine*, epublished ahead of print, <http://dx.doi.org/10.1016/j.ctim.2012.11.007>. 2012.

Taylor, A. G., J. G. Anderson, S. L. Riedel, J. E. Lewis, P. A. Kinser and C. Bourguignon (2011). Cranial electrical stimulation improves symptoms and functional status in individuals with fibromyalgia. *Pain Management Nursing*, epublished ahead of print, [http://www.painmanagementnursing.org/article/S1524-9042\(11\)00136-6/fulltext](http://www.painmanagementnursing.org/article/S1524-9042(11)00136-6/fulltext). 2011.

Tan, G., D. H. Rintala, M. P. Jensen, J. S. Richards, S. A. Holmes, R. Parachuri, S. Lashgari-Saegh and L. R. Price (2011). Efficacy of cranial electrotherapy stimulation for neuropathic pain following spinal cord injury: a multi-site randomized controlled trial with a secondary 6-month open-label phase. *The Journal of Spinal Cord Medicine* 34(3):285-296.

Lyon, D. E., C. Schubert and A. G. Taylor (2010). Pilot study of cranial stimulation for symptom management in breast cancer. *Oncology Nursing Forum* 37(4): 476-483.

Shultz, J. C. (2010). The effects of cranial electrotherapy stimulation on attention: A double-blinded, placebo-controlled investigation. Psy.D. Dissertation. The Chicago School of Professional Psychology, 106 pages.

Rintala, D. H., Tan, G., Willson, P., Bryant, M. S., and Lai, E. C. H. (2009). Feasibility of using cranial electrotherapy stimulation for pain in persons with Parkinson's disease. *Parkinson's Disease* 8 pages, 2010.

Strentzsch, J. A. (2009). An examination of cranial electrotherapy stimulation (CES) on alpha-amylase levels, cortisol levels and state-trait anxiety scores in the chronically ill. Doctoral dissertation, Saint Mary's University, San Antonio, Texas. 121 pages.

Mellen, R. R., and W. Mackey (2009). Reducing sheriff's officers' symptoms of depression using cranial electrotherapy stimulation (CES): a control experimental study. *The Correctional Psychologist* 41(1):9-15.

Mellen, R. R., and W. Mackey (2008). Cranial electrotherapy stimulation (CES) and the reduction of stress symptoms in a sheriff's jail security and patrol officer population. *American Jails* 22(5):32-38.

Kim, H. J. et al. (2008). The Effect of Cranial Electrotherapy Stimulation on Preoperative Anxiety and Hemodynamic Responses. *Korean Journal of Anesthesiology* 55(6): 657- 661.

Tan, G., D. H. Rintala, J. Thornby, J. Yang, W. Wade, and C. Vasilev (2006). Using cranial electrotherapy stimulation to treat pain associated with spinal cord injury. *Journal of Rehabilitation Research and Development* 43:461-474.

Cork, R. C., P. Wood, N. Ming, C. Shepherd, J. Eddy, and L. Price (2004). The effect of cranial electrotherapy stimulation (CES) on pain associated with fibromyalgia. *The Internet Journal of Anesthesiology* 8(2).

Lichtbroun, A. S., M. C. Raicer, and R. B. Smith (2001). The treatment of fibromyalgia with cranial electrotherapy stimulation. *Journal of Clinical Rheumatology* 7(2):72-78.

Schroeder, M.J., and R. E. Barr (2001). Quantitative analysis of electroencephalogram during cranial electrotherapy stimulation. *Clinical Neurophysiology* 112:2075-2083. Doctoral dissertation, University of Texas at Austin, 191 pages, 1999.

Sizer, P., S. Sawyer, J. Brismee, K. Jones, and J. Slauterbeck (2000). The effect of microcurrent stimulation on postoperative pain after patellar tendon-bone anterior cruciate ligament reconstruction. Presented at the American Physical Therapy Association Annual Conference, Indianapolis, IN, June 2000.

- Winick, R. L. (1999). Cranial electrotherapy stimulation (CES): a safe and effective low cost means of anxiety control in a dental practice. *General Dentistry* 47(1):50-55.
- Heffernan, M. (1997). The effect of variable microcurrents on EEG spectrum and pain control. *Canadian Journal of Clinical Medicine* 4(10):4-11.
